

## VOLUME 58 • AUTHOR INDEX

- Abbot SE et al.** Tumour necrosis factor  $\alpha$  stimulated rheumatoid synovial microvascular endothelial cells exhibit increased shear rate dependent leucocyte adhesion in vitro, 573
- Accogli E** see Perniola R et al
- Adachi M** see Hatano Y et al
- Aggarwal BB** see Darnay BG and Aggarwal BB
- Ahern MJ** see Shanahan EM et al
- Ainola M** see Konttinen YT et al
- Akaza T** see Kurokawa M et al
- Alavi A** see Axford JS et al
- Alexander CJ.** Heberden's and Bouchard's nodes, 675
- Allahabadia A** see Heward J et al
- Alldersea JE** see Matthey DL et al
- Al-Saffar Z** see Moots RJ et al
- Aman S et al.** The value of synovial fluid analysis in the assessment of knee joint destruction in arthritis in a three year follow up study, 559
- Amerongen AVN** see van der Reijden WA et al
- Amor B** see Reis P et al
- Amoura Z** see Piette J-C et al
- Andersen CB** see Ostergaard K et al
- Andersson U** see Cunnane G et al
- Andre M** see Papo T et al
- Aoyagi K et al.** Prevalence of joint pain is higher among women in rural Japan than urban Japanese-American women in Hawaii, 315
- Apaydin S et al.** A successful renal transplantation in Behçet's syndrome: letter, 719
- Apparailly F** see Jorgensen C et al
- Appelboom A** see Moore AR et al
- Aringer M** see Köller M et al
- Assayag P** see Sarda L et al
- Aumaitre O** see Papo T et al
- Axell T** see Uhlig T et al
- Axford JS** see George GHM and Axford JS
- Axford JS et al.** Increased IgA rheumatoid factor and V<sub>H</sub>1 associated cross reactive idiotype expression in patients with Lyme arthritis and neuroborreliosis, 757
- Bacon PA** see Moots RJ et al
- Bahjaoui-Bouhaddi M** see Toussiot E et al
- Balint P** see Hamilton J et al
- Ballara S** see Maini RN et al
- Balsa A** see Villaverde V et al
- Bank RA et al.** Lysylhydroxylation and non-reducible crosslinking of human supraspinatus tendon collagen: changes with age and in chronic rotator cuff tendinitis, 35
- Barakat K** see Pyne D et al
- Barendregt PJ et al.** Parasympathetic failure does not contribute to ocular dryness in primary Sjögren's syndrome, 746
- Barnett AH** see Heward J et al
- Barozzi L** see Cantini F et al
- Barrera P** see Rodenburg RJT et al
- Basci NE** see Kortunay S et al
- Bathum L** see Kortunay S et al
- Baumann G** see Witt C et al
- Bayliss MT** see Lewis S et al
- Bayne EK** see van Meurs JBJ et al
- Belcher C** see Lewis S et al
- Bell AL** see Courtney P et al
- Bell M** see Carroll G et al
- Bellamy N et al.** Perceptual variation in grading hand, hip and knee radiographs: observations based on an Australian Twin Registry study of osteoarthritis, 766
- Belt EA et al.** Assessment of mutilans-like hand deformities in chronic inflammatory joint diseases. A radiographic study of 52 patients, 250
- Bendtsen K** see Ostergaard K et al
- Benjamin S** see Hopkinson N et al
- Berry E** see Veale DJ et al
- Bertouch JV** see Wong P et al
- Bijlsma JWJ** see van Vugt RM et al
- Bijzet J** see Hazenberg BPC et al
- Birrell F et al.** Projecting the need for hip replacement over the next three decades: influence of changing demography and threshold for surgery, 569
- Biskop M** see Schädlich H et al
- Bjork L** see Cunnane G et al
- Blake DR** see Abbot SE et al
- Bliddal H.** Placement of intra-articular injections verified by mini air-arthrography, 641
- Bloch DA** see Fries JF et al
- Blom HJ** see Haagsma CJ et al
- Bock E** see Sander O et al
- Boegård T et al.** Bone scintigraphy in chronic knee pain: comparison with magnetic resonance imaging, 20
- Boerbooms AMT** see Stolk JN et al
- Boiardi L** see Cantini F et al
- see Salvarani C et al**
- Bombardier C, Maetzel A.** Pharmacoeconomic evaluation of new treatments: efficacy versus effectiveness studies?, 182
- Bondeson J** see Feldmann M et al
- Book reviews** Bonnick SL. Bone densitometry in clinical practice, 409
- Miossec P, van den Berg WB, Firestein GS, editors.** T cell in arthritis, 150
- Boomsma F** see Barendregt PJ et al
- Borch A** see Hansen M et al
- Borges AC** see Witt C et al
- Borggreve SE** see Rood MJ et al
- Bornet H** see Duhaut P et al
- Bosch X.** Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644
- Bouter LM** see de Winter AF et al
- see van der Heijden GJM et al**
- Boylston AW** see Veale DJ et al
- Bozkurt A** see Kortunay S et al
- Bradbury N** see Weston VC et al
- Bragliani M** see Salvarani C et al
- Breedveld FC** see Furst DE et al
- see Rood MJ et al**
- Brennan FM** see Feldmann M et al
- see Maini RN et al**
- Bresnihan B** see Cunnane G et al
- Bresnihan B.** Treatment of rheumatoid arthritis with interleukin 1 receptor antagonist, 196
- Brittenden J** see Lian T et al
- Brosen K** see Kortunay S et al
- Bruce IN et al.** Factors associated with fatigue in patients with systemic lupus erythematosus, 379
- Brunner N** see Slot O et al
- Budak F** see Dalkilic E et al
- Byers RJ** see Freemont AJ et al
- Calgüneri M** see Kortunay S et al
- Caminal L** see Susano R et al
- Cantagrel A** see Dougados M et al
- Cantalejo M** see Villaverde V et al
- Cantini F** see Gumá M et al
- see Salvarani C et al**
- Cantini F et al.** Remitting seronegative symmetrical synovitis with pitting oedema (RS3PE) syndrome: a prospective follow up and magnetic resonance imaging study, 230
- Capell HA** see Crilly A et al
- see Gordon M-M et al**
- see Maiden N et al**
- Capell HA, McEntegart A.** Musculoskeletal disorders in the community: letter, 323
- Cappelle S** see Toussiot E et al
- Carroll G et al.** Effects of methotrexate on cartilage metabolism: matters arising, 196
- Casado E** see Gumá M et al
- Castro J** see Rivera-Civico F et al
- Cawley MID** see Venkatachalam S et al
- Cervini C** see Grassi W et al
- Chang D-M et al.** Effects of anti-rheumatic herbal medicines on cellular adhesion molecules, 366
- Chang M-L** see Chang D-M et al
- Charles P** see Maini RN et al
- Charlotte F** see Papo T et al
- Chen T-Y** see Tzang B-S et al
- Cid MC** see Coll-Vinent B et al
- Clair EW.** Interleukin 10 treatment for rheumatoid arthritis, 199
- Clark E et al.** Ear, ear, what's going on in Norfolk?: matters arising, 660
- Clunie GPR** see O'Duffy EK et al
- Collina E** see Salvarani C et al
- Coll-Vinent B et al.** Circulating soluble adhesion molecules in patients with giant cell arteritis. Correlation between soluble intercellular adhesion molecule-1 (sICAM-1) concentrations and disease activity, 189
- Combe B** see Dougados M et al
- see Hayem G et al**
- Constantopoulos SH** see Papiris SA et al
- Cooper C** see Venkatachalam S et al
- Corral LG, Kaplan G.** Immunomodulation by thalidomide and thalidomide analogues, 1107
- Corredoira J** see Garcia-Porrúa C et al

## VOLUME 58 • SUBJECT INDEX

- ADAM 10**, Detection of anti-ADAM 10 antibody in serum of a patient with pulmonary fibrosis associated with dermatomyositis, 770
- adhesion**, Expression of adhesion molecules on synovial fluid and peripheral blood monocytes in patients with inflammatory joint disease and osteoarthritis, 709
- adhesion molecules**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156
- Circulating soluble adhesion molecules in patients with giant cell arteritis. Correlation between soluble intercellular adhesion molecule-1 (sICAM-1) concentrations and disease activity, 189
- Tumour necrosis factor  $\alpha$  stimulated rheumatoid synovial microvascular endothelial cells exhibit increased shear rate dependent leucocyte adhesion in vitro, 573
- adjuvant arthritis**, PEGylated recombinant human soluble tumour necrosis factor receptor type I (r-Hu-sTNF-RI): novel high affinity TNF receptor designed for chronic inflammatory diseases, 173
- adult juvenile idiopathic arthritis**, Recurrent lung shadowing in adult juvenile idiopathic arthritis: *lesson of the month*, 742
- adult onset Still's disease**, A man with intermittent fever and arthralgia: *matters arising*, 659
- air-arthrography**, Placement of intra-articular injections verified by mini air-arthrography, 641
- alcohol**, Increased level of apolipoprotein B/apolipoprotein A1 ratio as a potential risk for osteonecrosis, 514
- aldolase**, Decreased serum biochemical markers of muscle origin in patients with ankylosing spondylitis, 541
- aldolase A**, Serum samples of patients with rheumatoid arthritis contain a specific autoantibody to "denatured" aldolase A in the osteoblast-like cell line, MG-63, 169
- alpha, antitrypsin**, Destruction of articular cartilage by alpha, macroglobulin elastase complexes: role in rheumatoid arthritis, 109
- alpha, macroglobulin**, Destruction of articular cartilage by alpha, macroglobulin elastase complexes: role in rheumatoid arthritis, 109
- alveolitis**, Pulmonary involvement in diffuse cutaneous systemic sclerosis: bronchoalveolar fluid granulocytosis predicts progression of fibrosing alveolitis, 635
- amiodarone**, Amiodarone induced lupus: *letter*, 655
- amyloid A protein**, A quantitative method for detecting deposits of amyloid A protein in aspirated fat tissue of patients with arthritis, 96
- androgen receptor**, Polymorphic CAG repeats of the androgen receptor gene and rheumatoid arthritis, 500
- angiogenesis**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156
- ankle**, Thickness of human articular cartilage in joints of the lower limb, 27
- ankylosing spondylitis**, Abnormal autonomic cardiovascular control in ankylosing spondylitis, 481
- Ankylosing spondylitis in monozygotic twins: studies on immunological parameters, 428
- Decreased serum biochemical markers of muscle origin in patients with ankylosing spondylitis, 541
- Lumbar osteotomy for correction of thoracolumbar kyphotic deformity in ankylosing spondylitis. A structured review of three methods of treatment: *reviews*, 399
- anorexia nervosa**, Effect of hormone replacement therapy on bone density in a patient with severe osteoporosis caused by anorexia nervosa: *letter*, 66
- anterior uveitis**, HLA-B27+ anterior uveitis with or without associated spondyloarthritis: clinical and immunological features: *letter*, 721
- antibodies**, Preliminary results of early clinical trials with the fully human anti-TNF $\alpha$  monoclonal antibody D2E7, 170
- anti-centromere antibody**, HTLV-I associated Sjögren's syndrome is aetiologically distinct from anti-centromere antibodies positive Sjögren's syndrome, 320
- anticytokines**, Immunological evaluation of cytokine and anticytokine immunotherapy in vivo: what have we learnt?: *reviews*, 136
- antiflaggrin autoantibodies**, Anti-perinuclear factor compared with the so called "antikeratin" antibodies and antibodies to human epidermis flaggrin, in the diagnosis of arthritides, 42
- antikeratin antibodies**, Anti-perinuclear factor compared with the so called "antikeratin" antibodies and antibodies to human epidermis flaggrin, in the diagnosis of arthritides, 42
- antimysin antibody**, <sup>111</sup>Indium antimysin antibody imaging of primary myocardial involvement in systemic diseases, 90
- antineutrophil cytoplasmic antibodies**, Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644
- Monocyte activation in patients with Wegener's granulomatosis, 237
- antinuclear antibodies**, Antinuclear antibodies in relapsing polychondritis: *letter*, 656
- anti-PCNA antibodies**, Presentation of autoantibody to proliferating cell nuclear antigen in patients with chronic hepatitis B and C virus infection, 630
- antiperinuclear factor**, Anti-perinuclear factor compared with the so called "antikeratin" antibodies and antibodies to human epidermis flaggrin, in the diagnosis of arthritides, 42
- antiphospholipid antibodies**, Hug(h)e(s)' ears: an unusual presentation of antiphospholipid syndrome: *letter*, 65
- antiphospholipid syndrome**, Ear, ear, what's going on in Norfolk?: *matters arising*, 660
- anti-TNF antibody treatment**, Anti-TNF antibody treatment of Crohn's disease, 1114
- anti-TNF treatments**, FDA perspective on anti-TNF treatments, 190
- anti-TNF $\alpha$** , The rationale for the current boom in anti-TNF $\alpha$  treatment. Is there an effective means to define therapeutic targets for drugs that provide all the benefits of anti-TNF $\alpha$  and minimise hazards?, 127
- anti-tumour necrosis treatment**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156
- apatite crystals**, Crystals in arthritis: new age nonsense or novel therapeutic target?: *matters arising*, 723
- apolipoprotein B/apolipoprotein A1 ratio**, Increased level of apolipoprotein B/apolipoprotein A1 ratio as a potential risk for osteonecrosis, 514
- apoptosis**, DAP kinase and DAP-3: novel positive mediators of apoptosis, 114
- Increased apoptotic peripheral blood neutrophils in systemic lupus erythematosus: relations with disease activity, antibodies to double stranded DNA, and neutropenia, 309
- arthritis**, A quantitative method for detecting deposits of amyloid A protein in aspirated fat tissue of patients with arthritis, 96
- Analysis of 16 different matrix metalloproteinases (MMP-1 to MMP-20) in the synovial membrane: different profiles in trauma and rheumatoid arthritis, 691
- Expression of adhesion molecules on synovial fluid and peripheral blood monocytes in patients with inflammatory joint disease and osteoarthritis, 709
- Influence of long term silicone implantation on type II collagen induced arthritis in mice, 503
- Influence of sulphasalazine, methotrexate, and the combination of both on plasma homocysteine concentrations in patients with rheumatoid arthritis, 79
- Pulse methylprednisolone therapy for arthritis causing muscle weakness, 521
- arthritis mutilans**, Assessment of mutilans-like hand deformities in chronic inflammatory joint diseases. A radiographic study of 52 patients, 250
- arthroplasty**, Projecting the need for hip replacement over the next three decades: influence of changing demography and threshold for surgery, 569
- arthroscopy**, Intra-articular primatised anti-CD4: efficacy in resistant rheumatoid knees. A study of combined arthroscopy, magnetic resonance imaging, and histology, 342
- articular cartilage**, Complement C1s activation in degenerating articular cartilage of rheumatoid arthritis patients: immunohistochemical studies with an active form specific antibody, 175
- Thickness of human articular cartilage in joints of the lower limb, 27
- atlanto-axial subluxation**, An unusual cause of atlanto-axial subluxation: *lesson of the month*, 679
- atrial myxomas**, Getting to the heart of the matter: *lesson of the month*, 332
- auranofin**, Does sulphasalazine cause drug induced systemic lupus erythematosus? No effect evident in a prospective randomised trial of 200 rheumatoid patients treated with sulphasalazine or auranofin over five years, 288
- Australian Aborigines**, Rheumatic disease and the Australian Aborigine, 266
- autoantibodies**, Influence of long term silicone implantation on type II collagen induced arthritis in mice, 503
- autoantibody**, Detection of anti-ADAM 10 antibody in serum of a patient with pulmonary fibrosis associated with dermatomyositis, 770
- Serum samples of patients with rheumatoid arthritis contain a specific autoantibody to "denatured" aldolase A in the osteoblast-like cell line, MG-63, 169
- autoimmune**, Increased IgA rheumatoid factor and V $\beta$ 1 associated cross reactive idiotype expression in patients with Lyme arthritis and neuroborreliosis, 757
- autoimmune disease**, Non-host cells in the pathogenesis of autoimmune disease: a new paradigm?: *leader*, 518

- autoimmune rheumatic disorders**, Lung involvement in primary Sjögren's syndrome is mainly related to the small airway disease, 61
- autoimmunity**, Pregnancy and early onset pauciarticular juvenile chronic arthritis, 475
- autonomic dysfunction**, Parasympathetic failure does not contribute to ocular dryness in primary Sjögren's syndrome, 746
- autonomic nervous system**, Abnormal autonomic cardiovascular control in ankylosing spondylitis, 481
- avascular necrosis**, Systemic vasculitis or not? That is the question, 591
- back pain**, An unusual cause of back pain in osteoporosis: lessons from a spinal lesion, 327  
Polymyalgia and low back pain: a common cause not to be missed: *lesson of the month*, 462
- bacteria**, HLA-B27 associated spondyloarthropathy, an autoimmune disease based on crossreactivity between bacteria and HLA-B27?, 598
- bacterial arthritis**, Two forms of reactive arthritis?, 737
- baroreflex sensitivity**, Abnormal autonomic cardiovascular control in ankylosing spondylitis, 481
- Behçet's syndrome**, A successful renal transplantation in Behçet's syndrome: *letter*, 719  
Neutrophil chemotaxis in Behçet's syndrome: *letter*, 658
- biopsy**, Biopsy proven and biopsy negative temporal arteritis: differences in clinical spectrum at the onset of the disease, 335
- body mass index**, Osteoarthritis of the knee in men and women in association with overweight, smoking, and hormone therapy, 151
- bone density**, Effect of hormone replacement therapy on bone density in a patient with severe osteoporosis caused by anorexia nervosa: *letter*, 66
- bone mass**, A randomised trial of differentiated prednisolone treatment in active rheumatoid arthritis. Clinical benefits and skeletal side effects, 713
- bone remodelling**, The shape of the distal femur: a palaeopathological comparison of eburnated and non-eburnated femora, 72
- bone scintigraphy**, Bone scintigraphy in chronic knee pain: comparison with magnetic resonance imaging, 20
- Bouchard's nodes**, Heberden's and Bouchard's nodes, 675
- breast feeding**, Pregnancy and early onset pauciarticular juvenile chronic arthritis, 475
- bronchoalveolar lavage**, Pulmonary involvement in diffuse cutaneous systemic sclerosis: bronchoalveolar fluid granulocytosis predicts progression of fibrosing alveolitis, 635
- calcium pyrophosphate dihydrate crystals**, Most calcium pyrophosphate crystals appear as non-birefringent, 582
- cardiac assessment**, Abnormal autonomic cardiovascular control in ankylosing spondylitis, 481
- carpus**, Magnetic resonance imaging of the wrist in early rheumatoid arthritis reveals progression of erosions despite clinical improvement, 156
- cartilage**, Role of tumour necrosis factor  $\alpha$  in experimental arthritis: separate activity of interleukin 1 $\beta$  in chronicity and cartilage destruction, 140
- cartilage degradation**, In situ zymographic localisation of type II collagen degrading activity in osteoarthritic human articular cartilage, 357
- cartilage destruction**, Increased vulnerability of postarthritic cartilage to a second arthritic insult: accelerated MMP activity in a flare up of arthritis, 350
- cartilage metabolism**, Effects of methotrexate on cartilage metabolism: *matters arising*, 196
- catecholamines**, Abnormal autonomic cardiovascular control in ankylosing spondylitis, 481
- causes of death**, Mortality in rheumatoid arthritis patients with disease onset in the 1980s, 11
- cellular adhesion molecules**, Effects of anti-rheumatic herbal medicines on cellular adhesion molecules, 366
- cerebral haemorrhage**, Asthma and epididymitis: the calm before the storm, 731
- chemokines**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156  
Macrophage inflammatory protein 1  $\alpha$  expression by synovial fluid neutrophils in rheumatoid arthritis, 297
- Chlamydia trachomatis**, Optimised sample preparation of synovial fluid for detection of *Chlamydia trachomatis* DNA by polymerase chain reaction, 103
- chondrocalcinosis**, Most calcium pyrophosphate crystals appear as non-birefringent, 582
- chondroitin sulphate**, Chondroitin sulphation patterns in synovial fluid in osteoarthritis subsets, 441
- chronic hepatitis**, Presentation of autoantibody to proliferating cell nuclear antigen in patients with chronic hepatitis B and C virus infection, 630
- chronic wrist pain**, Chronic wrist pain: diagnosis and management. Development and use of a new algorithm, 665
- Churg-Strauss syndrome**, Asthma and epididymitis: the calm before the storm, 731
- cladribine**, Cladribine in the treatment of systemic lupus erythematosus nephritis: *letter*, 653
- clinical algorithm**, Chronic wrist pain: diagnosis and management. Development and use of a new algorithm, 665
- clinical features**, Biopsy proven and biopsy negative temporal arteritis: differences in clinical spectrum at the onset of the disease, 335
- clinical trial**, No effect of bipolar interferential electrotherapy and pulsed ultrasound for soft tissue shoulder disorders: a randomised controlled trial, 530  
Preliminary results of early clinical trials with the fully human anti-TNF $\alpha$  monoclonal antibody D2E7, 170  
Summary of clinical trials in rheumatoid arthritis using infliximab, an anti-TNF $\alpha$  treatment, 161
- collagen**, Lysylhydroxylation and non-reducible crosslinking of human supraspinatus tendon collagen: changes with age and in chronic rotator cuff tendinitis, 35  
The value of synovial fluid analysis in the assessment of knee joint destruction in arthritis in a three year follow up study, 559
- collagenase**, Expression of laminins and their integrin receptors in different conditions of synovial membrane and synovial membrane-like interface tissue, 683
- combination therapy**, Combination therapy in early rheumatoid arthritis: a randomised, controlled, double blind 52 week clinical trial of sulphasalazine and methotrexate compared with the single components, 220  
Utility of disease modifying antirheumatic drugs in "sawtooth" strategy. A prospective study of early rheumatoid arthritis patients up to 15 years, 618
- complement C1s**, Complement C1s activation in degenerating articular cartilage of rheumatoid arthritis patients: immunohistochemical studies with an active form specific antibody, 175
- complementary medicine**, Evidence-based complementary medicine: A contradiction in terms? *leader*, 69
- computed tomography**, Lung involvement in primary Sjögren's syndrome is mainly related to the small airway disease, 61
- consensus statement**, Access to disease modifying treatments for rheumatoid arthritis patients, 1129
- corticosteroid**, Increased level of apolipoprotein B/apolipoprotein A1 ratio as a potential risk for osteonecrosis, 514  
Placement of intra-articular injections verified by mini air-arthrography, 641  
The immune suppressive effect of dexamethasone in rheumatoid arthritis is accompanied by upregulation of interleukin 10 and by differential changes in interferon  $\gamma$  and interleukin 4 production, 49
- creatine kinase**, Decreased serum biochemical markers of muscle origin in patients with ankylosing spondylitis, 541
- Crohn's disease**, Anti-TNF antibody treatment of Crohn's disease, 1114
- crosslinks**, Lysylhydroxylation and non-reducible crosslinking of human supraspinatus tendon collagen: changes with age and in chronic rotator cuff tendinitis, 35
- cryoglobulinaemia**, Prevalence and clinical features of cryoglobulinaemia in multitransfused  $\beta$ -thalassaemia patients, 698
- crystal arthritides**, Most calcium pyrophosphate crystals appear as non-birefringent, 582
- crystals**, Identification of crystals in synovial fluid: *leader*, 261  
CTLA-4, The A-G polymorphism in exon 1 of the CTLA-4 gene is not associated with systemic lupus erythematosus, 193
- cyclophosphamide**, Asthma and epididymitis: the calm before the storm, 731
- cytochrome P450**, CYP2C19 genotype does not represent a genetic predisposition in idiopathic systemic lupus erythematosus, 182
- cytokine**, Thrombin receptor mediated signals induce expressions of interleukin 6 and granulocyte colony stimulating factor via NF- $\kappa$ B activation in synovial fibroblasts, 55
- cytokine network**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156
- cytokines**, Anti-inflammatory effects of systemic anti-tumour necrosis factor  $\alpha$  treatment in human/murine SCID arthritis, 434  
Immunological evaluation of cytokine and anticytokine immunotherapy in vivo: what have we learnt? *reviews*, 136  
Immunomodulation by thalidomide and thalidomide analogues, 1107  
Lymphocyte populations and cytokine concentrations in pericardial fluid from a systemic lupus erythematosus patient with cardiac tamponade: *letter*, 720  
Superinduction of interleukin 8 mRNA in activated monocyte derived macrophages from rheumatoid arthritis patients, 648  
Tumour necrosis factor and other cytokines in murine lupus, 149
- DAP kinase**, DAP kinase and DAP-3: novel positive mediators of apoptosis, 114
- DAP-3**, DAP kinase and DAP-3: novel positive mediators of apoptosis, 114
- deformity**, A measure of limited joint motion and deformity correlates with HLA-DRB1 and DQB1 alleles in patients with rheumatoid arthritis, 703

- demographics**, Projecting the need for hip replacement over the next three decades: influence of changing demography and threshold for surgery, 569
- demyelinating disease**, The role of TNF $\alpha$  and lymphotoxin in demyelinating disease, 1121
- denature**, Serum samples of patients with rheumatoid arthritis contain a specific autoantibody to "denatured" aldolase A in the osteoblast-like cell line, MG-63, 169
- dermatomyositis**, Detection of anti-ADAM 10 antibody in serum of a patient with pulmonary fibrosis associated with dermatomyositis, 770
- dexamethasone**, The immune suppressive effect of dexamethasone in rheumatoid arthritis is accompanied by upregulation of interleukin 10 and by differential changes in interferon  $\gamma$  and interleukin 4 production, 49
- diagnostic classification**, Diagnostic classification of shoulder disorders: interobserver agreement and determinants of disagreement, 272
- diagnostic validity**, Diagnostic evaluation of classification criteria for rheumatoid arthritis and reactive arthritis in an early synovitis outpatient clinic, 278
- differential diagnosis**, Chronic wrist pain: diagnosis and management. Development and use of a new algorithm, 665
- disease activity**, A randomised trial of differentiated prednisolone treatment in active rheumatoid arthritis. Clinical benefits and skeletal side effects, 713  
Factors associated with fatigue in patients with systemic lupus erythematosus, 379
- disease modifying anti-rheumatic drugs**, Early referral, diagnosis, and treatment of rheumatoid arthritis: evidence for changing medical practice, 510  
Safety, cost and effectiveness issues with disease modifying anti-rheumatic drugs in rheumatoid arthritis, 186  
Utility of disease modifying antirheumatic drugs in "sawtooth" strategy. A prospective study of early rheumatoid arthritis patients up to 15 years, 618
- disease modifying treatment**, Access to disease modifying treatments for rheumatoid arthritis patients, 1129
- disease onset**, Mortality in rheumatoid arthritis patients: *matters arising*, 723
- disease severity**, HLA-DRB1 alleles associated with polymyalgia rheumatica in northern Italy: correlation with disease severity, 303
- disease severity marker**, Tumour necrosis factor gene polymorphisms as severity markers in rheumatoid arthritis, 120
- DNA sequencing**, Characterisation of T cell clonotypes that accumulated in multiple joints of patients with rheumatoid arthritis, 546
- early arthritis**, Diagnostic evaluation of classification criteria for rheumatoid arthritis and reactive arthritis in an early synovitis outpatient clinic, 278
- early treatment**, Early referral, diagnosis, and treatment of rheumatoid arthritis: evidence for changing medical practice, 510
- ecstasy**, A concealed cause of recurrent renal failure in a patient with juvenile chronic arthritis, 396
- editor**, Changing of the guard: *leader*, 391  
From Nottingham to Nijmegen: *leader*, 390
- education**, Guidelines for rheumatology undergraduate core curriculum, 133
- elderly onset arthritis**, Clinical and laboratory manifestations of elderly onset psoriatic arthritis: a comparison with younger onset disease, 226
- ELISPOT**, Ankylosing spondylitis in monozygotic twins: studies on immunological parameters, 428
- endothelium**, Tumour necrosis factor  $\alpha$  stimulated rheumatoid synovial microvascular endothelial cells exhibit increased shear rate dependent leucocyte adhesion in vitro, 573
- erythrocyte sedimentation rate**, Genotyping for disease associated HLA DR  $\beta$ 1 alleles and the need for early joint surgery in rheumatoid arthritis: a quantitative evaluation, 114
- exercise**, Effectiveness of home exercise on pain and disability from osteoarthritis of the knee: a randomised controlled trial, 15
- experimental models**, Influence of long term silicone implantation on type II collagen induced arthritis in mice, 503
- fat tissue**, A quantitative method for detecting deposits of amyloid A protein in aspirated fat tissue of patients with arthritis, 96
- fatigue**, Factors associated with fatigue in patients with systemic lupus erythematosus, 379
- Federal Drug Agency**, FDA perspective on anti-TNF treatments, 190
- femoral head**, Systemic vasculitis or not? That is the question, 591
- fibroblast**, Autocrine control of vitamin D metabolism in synovial cells from arthritic patients, 372
- fibromyalgia**, How should we manage fibromyalgia?: *leader*, 325  
Rasch analysis of the Western Ontario MacMaster Questionnaire (WOMAC) in 2205 patients with osteoarthritis, rheumatoid arthritis, and fibromyalgia, 563
- FK506**, Leg bone pain syndrome in a kidney transplant patient treated with tacrolimus (FK506): *letter*, 653
- flow cytometry**, Monocyte activation in patients with Wegener's granulomatosis, 237
- gelatinase**, Analysis of 16 different matrix metalloproteinases (MMP-1 to MMP-20) in the synovial membrane: different profiles in trauma and rheumatoid arthritis, 691
- genetic polymorphism**, CYP2C19 genotype does not represent a genetic predisposition in idiopathic systemic lupus erythematosus, 182
- genetics**, Neuropsychiatric systemic lupus erythematosus is associated with imbalance in interleukin 10 promoter haplotypes, 85
- giant cell arteritis**, Biopsy proven and biopsy negative temporal arteritis: differences in clinical spectrum at the onset of the disease, 335  
Circulating soluble adhesion molecules in patients with giant cell arteritis. Correlation between soluble intercellular adhesion molecule-1 (sICAM-1) concentrations and disease activity, 189
- glutathione S-transferase**, Association of polymorphism in glutathione S-transferase loci with susceptibility and outcome in rheumatoid arthritis: comparison with the shared epitope, 164
- glycosaminoglycans**, Destruction of articular cartilage by  $\alpha$ -<sub>2</sub> macroglobulin elastase complexes: role in rheumatoid arthritis, 109
- gold**, Prospective six year follow up of patients withdrawn from a randomised study comparing parenteral gold salt and methotrexate, 281
- gout**, Gout, 611
- granulomatosis**, Nasal manifestations of rheumatic diseases: *leader*, 589
- haloperidol**, Old drug, new tricks: haloperidol inhibits secretion of proinflammatory cytokines, 585
- health status**, Factors associated with fatigue in patients with systemic lupus erythematosus, 379
- heart failure**, Clinical implications of tumour necrosis factor  $\alpha$  antagonism in patients with congestive heart failure, 1103
- heat shock proteins**, Anti-heat shock protein 70 kDa and 90 kDa antibodies in serum of patients with rheumatoid arthritis, 291
- Heberden's nodes**, Heberden's and Bouchard's nodes, 675
- hepatitis C**, Prevalence and clinical features of cryoglobulinaemia in multitransfused  $\beta$ -thalassaemia patients, 698
- herb**, Effects of anti-rheumatic herbal medicines on cellular adhesion molecules, 366
- hip**, Expression of laminins and their integrin receptors in different conditions of synovial membrane and synovial membrane-like interface tissue, 683  
Prevalence of hip osteoarthritis in Iceland, 201  
Projecting the need for hip replacement over the next three decades: influence of changing demography and threshold for surgery, 569  
Thickness of human articular cartilage in joints of the lower limb, 27
- hip arthroplasty**, Risk of post-discharge venous thromboembolism in patients with rheumatoid arthritis undergoing knee or hip arthroplasty. Is prolonged thromboprophylaxis warranted or dangerous?: *leader*, 392
- hip joint**, Are radiological joint space widths of normal hips asymmetrical?, 246
- hip pain**, Hip pain, 148
- histopathology**, Validity of histopathological grading of articular cartilage from osteoarthritic knee joints, 208
- HLA DR  $\beta$ 1**, Genotyping for disease associated HLA DR  $\beta$ 1 alleles and the need for early joint surgery in rheumatoid arthritis: a quantitative evaluation, 114
- HLA-B27**, HLA-B27 associated spondyloarthropathy, an autoimmune disease based on crossreactivity between bacteria and HLA-B27?, 598  
Two forms of reactive arthritis?, 737
- HLA-DQB1 alleles**, A measure of limited joint motion and deformity correlates with HLA-DRB1 and DQB1 alleles in patients with rheumatoid arthritis, 703
- HLA-DRB1 alleles**, HLA-DRB1 alleles associated with polymyalgia rheumatica in northern Italy: correlation with disease severity, 303
- homocysteine**, Influence of sulphasalazine, methotrexate, and the combination of both on plasma homocysteine concentrations in patients with rheumatoid arthritis, 79
- hormone replacement therapy**, Effect of hormone replacement therapy on bone density in a patient with severe osteoporosis caused by anorexia nervosa: *letter*, 66
- HTLV-I**, HTLV-I associated Sjögren's syndrome is aetiologically distinct from anti-centromere antibodies positive Sjögren's syndrome, 320
- hyaluronidase**, Examination of synovial fluid and serum hyaluronidase activity as a joint marker in rheumatoid arthritis and osteoarthritis patients (by zymography), 186
- hydroxychloroquine**, Hydroxychloroquine treatment for primary Sjögren's syndrome: its effect on salivary and serum inflammatory markers, 253
- Iceland**, Prevalence of hip osteoarthritis in Iceland, 201
- ICTP**, The value of synovial fluid analysis in the assessment of knee joint destruction in arthritis in a three year follow up study, 559
- idiotype**, Increased IgA rheumatoid factor and V $\beta$ 1 associated cross reactive idiotype expression in patients with Lyme arthritis and neuroborreliosis, 757

- IgA**, Ro/SSA and La/SSB specific IgA autoantibodies in serum of patients with Sjögren's syndrome and systemic lupus erythematosus, 623
- image analysis**, Quantitative analysis of synovial membrane inflammation: a comparison between automated and conventional microscopic measurements, 493
- immune function**, Reduced purine 5'-nucleotidase activity in lymphocytes of patients with systemic lupus erythematosus: results of a pilot study, 122
- immunological diseases**, Prevalence and clinical features of cryoglobulinaemia in multitransfused  $\beta$ -thalassaemia patients, 698
- immunology**, Immunological evaluation of cytokine and anticytokine immunotherapy in vivo: what have we learnt? *review*, 136
- immunomodulators**, Immunomodulation by thalidomide and thalidomide analogues, 1107
- immunosuppressive treatment**, Leg bone pain syndrome in a kidney transplant patient treated with tacrolimus (FK506): *letter*, 653
- in situ hybridisation**, Autocrine control of vitamin D metabolism in synovial cells from arthritic patients, 372
- in situ zymography**, In situ zymographic localisation of type II collagen degrading activity in osteoarthritic human articular cartilage, 357
- incidence**, Changes in the incidence and prevalence of rheumatoid arthritis in Kamitonda, Wakayama, Japan, 1965-1996, 751
- infectious arthritis**, Reactive or infectious arthritis: *leader*, 661
- inflammation**, Anti-tumour necrosis factor specific antibody (infliximab) treatment provides insights into the pathophysiology of rheumatoid arthritis, 156
- Circulating soluble adhesion molecules in patients with giant cell arteritis. Correlation between soluble intercellular adhesion molecule-1 (sICAM-1) concentrations and disease activity, 189

- Klebsiella pneumoniae**, Ankylosing spondylitis in monozygotic twins: studies on immunological parameters, 428
- knee**, The shape of the distal femur: a palaeopathological comparison of eburnated and non-eburnated femora, 72
- Thickness of human articular cartilage in joints of the lower limb, 27
- knee arthroplasty**, Risk of post-discharge venous thromboembolism in patients with rheumatoid arthritis undergoing knee or hip arthroplasty. Is prolonged thromboprophylaxis warranted or dangerous? *leader*, 392
- knee joint destruction**, The value of synovial fluid analysis in the assessment of knee joint destruction in arthritis in a three year follow up study, 559
- knee osteoarthritis**, Bone scintigraphy in chronic knee pain: comparison with magnetic resonance imaging, 20
- Effectiveness of home exercise on pain and disability from osteoarthritis of the knee: a randomised controlled trial, 15
- knee pain**, Effectiveness of home exercise on pain and disability from osteoarthritis of the knee: a randomised controlled trial, 15
- kyphosis**, Lumbar osteotomy for correction of thoracolumbar kyphotic deformity in ankylosing spondylitis. A structured review of three methods of treatment: *review*, 399
- laminin**, Expression of laminins and their integrin receptors in different conditions of synovial membrane and synovial membrane-like interface tissue, 683
- Larsen score**, Assessment of mutilans-like hand deformities in chronic inflammatory joint diseases. A radiographic study of 52 patients, 250
- leg bone pain syndrome**, Leg bone pain syndrome in a kidney transplant patient treated with tacrolimus (FK506): *letter*, 653
- life style factors**, Osteoarthritis of the knee in men and women in association with overweight, smoking, and hormone therapy, 151
- LMP2 polymorphism**, LMP2 polymorphisms and spondyloarthropathies: *letter*, 386
- local injection therapy**, Synovitis of small joints: sonographic guided diagnostic and therapeutic approach, 595
- lumbar osteotomy**, Lumbar osteotomy for correction of thoracolumbar kyphotic deformity in ankylosing spondylitis. A structured review of three methods of treatment: *review*, 399
- lung function**, Pulmonary involvement in diffuse cutaneous systemic sclerosis: bronchoalveolar fluid granulocytosis predicts progression of fibrosing alveolitis, 635
- lung shadowing**, Recurrent lung shadowing in adult juvenile idiopathic arthritis: *lesson of the month*, 742
- lupus**, Amiodarone induced lupus: *letter*, 655
- Tumour necrosis factor and other cytokines in murine lupus, 149
- Lyme disease**, Increased IgA rheumatoid factor and V<sub>H</sub>1 associated cross reactive idiotype expression in patients with Lyme arthritis and neuroborreliosis, 757
- lymphocyte phenotypes**, Lymphocyte phenotypes in systemic sclerosis: *letter*, 719
- lymphocytes**, Lymphocyte populations and cytokine concentrations in pericardial fluid from a systemic lupus erythematosus patient with cardiac tamponade: *letter*, 720
- lymphotoxin**, The role of TNF $\alpha$  and lymphotoxin in demyelinating disease, 1121
- macrophage**, Autocrine control of vitamin D metabolism in synovial cells from arthritic patients, 372
- Superinduction of interleukin 8 mRNA in activated monocyte derived macrophages from rheumatoid arthritis patients, 648
- magnetic resonance imaging**, Bone scintigraphy in chronic knee pain: comparison with magnetic resonance imaging, 20
- Intra-articular primatised anti-CD4: efficacy in resistant rheumatoid knees. A study of combined arthroscopy, magnetic resonance imaging, and histology, 342
- Magnetic resonance imaging of the wrist in early rheumatoid arthritis reveals progression of erosions despite clinical improvement, 156
- Remitting seronegative symmetrical synovitis with pitting oedema (RS3PE) syndrome: a prospective follow up and magnetic resonance imaging study, 230
- measurement**, Are radiological joint space widths of normal hips asymmetrical?, 246
- membrane type metalloproteinase**, Analysis of 16 different matrix metalloproteinases (MMP-1 to MMP-20) in the synovial membrane: different profiles in trauma and rheumatoid arthritis, 691
- mephenytoine**, CYP2C19 genotype does not represent a genetic predisposition in idiopathic systemic lupus erythematosus, 182
- metacarpophalangeal joint**, Synovitis of small joints: sonographic guided diagnostic and therapeutic approach, 595
- metalloproteinases**, Analysis of 16 different matrix metalloproteinases (MMP-1 to MMP-20) in the synovial membrane: different profiles in trauma and rheumatoid arthritis, 691
- Increased vulnerability of postarthritic cartilage to a second arthritic insult: accelerated MMP activity in a flare up of arthritis, 350
- methotrexate**, Combination therapy in early rheumatoid arthritis: a randomised, controlled, double blind 52 week clinical trial of sulphasalazine and methotrexate compared with the single components, 220
- Effects of methotrexate on cartilage metabolism: *matters arising*, 196

- Influence of sulphasalazine, methotrexate, and the combination of both on plasma homocysteine concentrations in patients with rheumatoid arthritis, 79
- Prospective six year follow up of patients withdrawn from a randomised study comparing parenteral gold salt and methotrexate, 281
- 3,4-methylenedioxymetamphetamine**, A concealed cause of recurrent renal failure in a patient with juvenile chronic arthritis, 396
- methylprednisolone**, Pulse methylprednisolone therapy for arthritis causing muscle weakness, 521
- microsatellite**, Polymorphic CAG repeats of the androgen receptor gene and rheumatoid arthritis, 500
- microscopic polyangiitis**, Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644
- microscopic polyarteritis**, Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644
- migrant studies**, Prevalence of joint pain is higher among women in rural Japan than urban Japanese-American women in Hawaii, 315
- MIP-1 $\alpha$** , Macrophage inflammatory protein 1 alpha expression by synovial fluid neutrophils in rheumatoid arthritis, 297
- MMP-13**, In situ zymographic localisation of type II collagen degrading activity in osteoarthritic human articular cartilage, 357
- monoclonal antibodies**, Intra-articular primatised anti-CD4: efficacy in resistant rheumatoid knees. A study of combined arthroscopy, magnetic resonance imaging, and histology, 342
- monoclonal antibody D2E7**, Preliminary results of early clinical trials with the fully human anti-TNF $\alpha$  monoclonal antibody D2E7, 170
- monocyte activation**, Monocyte activation in patients with Wegener's granulomatosis, 237
- monocytes**, Expression of adhesion molecules on synovial fluid and peripheral blood monocytes in patients with inflammatory joint disease and osteoarthritis, 709
- Superinduction of interleukin 8 mRNA in activated monocyte derived macrophages from rheumatoid arthritis patients, 648
- monozygotic twins**, Ankylosing spondylitis in monozygotic twins: studies on immunological parameters, 428
- mortality**, Does social disadvantage contribute to the excess mortality in rheumatoid arthritis patients?, 525
- Mortality in rheumatoid arthritis patients with disease onset in the 1980s, 11
- Mortality in rheumatoid arthritis patients: *matters arising*, 723
- multi-organ inflammation**, The function of tumour necrosis factor and receptors in models of multi-organ inflammation, rheumatoid arthritis, multiple sclerosis and inflammatory bowel disease, 132
- multiple sclerosis**, The function of tumour necrosis factor and receptors in models of multi-organ inflammation, rheumatoid arthritis, multiple sclerosis and inflammatory bowel disease, 132
- muscle weakness**, Pulse methylprednisolone therapy for arthritis causing muscle weakness, 521
- musculoskeletal disorders**, Musculoskeletal disorders in the community: *letter*, 323
- myocardial necrosis**, Fatal myocardial necrosis: *lesson of the month*, 198
- myocarditis**, <sup>111</sup>Indium antimyosin antibody imaging of primary myocardial involvement in systemic diseases, 90
- nasal disorders**, Nasal manifestations of rheumatic diseases: *leader*, 589
- neopeptope**, Increased vulnerability of postarthritic cartilage to a second arthritic insult: accelerated MMP activity in a flare up of arthritis, 350
- neuropsychiatric manifestations**, Neuropsychiatric systemic lupus erythematosus is associated with imbalance in interleukin 10 promoter haplotypes, 85
- neuropsychiatry**, Neuropsychiatric systemic lupus erythematosus: *matters arising*, 658
- neutropenia**, Increased apoptotic peripheral blood neutrophils in systemic lupus erythematosus: relations with disease activity, antibodies to double stranded DNA, and neutropenia, 309
- neutrophil**, Increased apoptotic peripheral blood neutrophils in systemic lupus erythematosus: relations with disease activity, antibodies to double stranded DNA, and neutropenia, 309
- Macrophage inflammatory protein 1 alpha expression by synovial fluid neutrophils in rheumatoid arthritis, 297
- neutrophil chemotaxis**, Neutrophil chemotaxis in Behçet's syndrome: *letter*, 658
- neutrophil elastase**, Destruction of articular cartilage by alpha<sub>1</sub> macroglobulin elastase complexes: role in rheumatoid arthritis, 109
- NF- $\kappa$ B**, Thrombin receptor mediated signals induce expressions of interleukin 6 and granulocyte colony stimulating factor via NF- $\kappa$ B activation in synovial fibroblasts, 55
- non-host cells**, Non-host cells in the pathogenesis of autoimmune disease: a new paradigm? *leader*, 518
- non-steroidal anti-inflammatory drugs**, Effects of nabumetone compared with naproxen on platelet aggregation in patients with rheumatoid arthritis, 257
- observer agreement**, Perceptual variation in grading hand, hip and knee radiographs: observations based on an Australian Twin Registry study of osteoarthritis, 766
- ocular dryness**, Parasympathetic failure does not contribute to ocular dryness in primary Sjögren's syndrome, 746
- oestrogen**, Association of oestrogen receptor gene polymorphisms with age at onset of rheumatoid arthritis, 7
- oestrogen receptor gene**, Association of oestrogen receptor gene polymorphisms with age at onset of rheumatoid arthritis, 7
- oestrogen therapy**, Osteoarthritis of the knee in men and women in association with overweight, smoking, and hormone therapy, 151
- onset age**, Polymorphic CAG repeats of the androgen receptor gene and rheumatoid arthritis, 500
- osteoarthritis**, Chondroitin sulphation patterns in synovial fluid in osteoarthritis subsets, 441

- shoulder pain**, An unusual cause of shoulder pain, 264
- Shoulder pain after stroke: case report and review: *letter*, 451
- sicca symptoms**, Clinical follow up study of 87 patients with sicca symptoms (dryness of eyes or mouth, or both), 423
- silicone**, Influence of long term silicone implantation on type II collagen induced arthritis in mice, 503
- single strand conformation polymorphism**, Characterisation of T cell clonotypes that accumulated in multiple joints of patients with rheumatoid arthritis, 546
- Sjögren's syndrome**, Clinical follow up study of 87 patients with sicca symptoms (dryness of eyes or mouth, or both), 423
- Expression of mitogen activated protein kinases in labial salivary glands of patients with Sjögren's syndrome, 382
- HTLV-I associated Sjögren's syndrome is aetiologically distinct from anti-centromere antibodies positive Sjögren's syndrome, 320
- Hydroxychloroquine treatment for primary Sjögren's syndrome: its effect on salivary and serum inflammatory markers, 253
- Parasympathetic failure does not contribute to ocular dryness in primary Sjögren's syndrome, 746
- Ro/SSA and La/SSB specific IgA autoantibodies in serum of patients with Sjögren's syndrome and systemic lupus erythematosus, 623
- Sicca symptoms, saliva and tear production, and disease variables in 636 patients with rheumatoid arthritis, 415
- Treatment of oral dryness related complaints (xerostomia) in Sjögren's syndrome: *review*, 465
- skeletal muscle**, Decreased serum biochemical markers of muscle origin in patients with ankylosing spondylitis, 541
- small airway obstruction**, Lung involvement in primary Sjögren's syndrome is mainly related to the small airway disease, 61
- socioeconomic status**, Does social disadvantage contribute to the excess mortality in rheumatoid arthritis patients?, 525
- soluble tumour necrosis factor receptor type I (sTNF-RI)**, PEGylated recombinant human soluble tumour necrosis factor receptor type I (r-Hu-sTNF-RI): novel high affinity TNF receptor designed for chronic inflammatory diseases, 173
- spine**, An unusual cause of back pain in osteoporosis: lessons from a spinal lesion, 327
- spleen**, Spleen haemorrhagic infarction and hazards of anticoagulation in Wegener's granulomatosis: *letter*, 654
- spondyloarthritis**, HLA-B27+ anterior uveitis with or without associated spondyloarthritis: clinical and immunological features: *letter*, 721
- spondyloarthropathy**, HLA-B27 associated spondyloarthropathy, an autoimmune disease based on crossreactivity between bacteria and HLA-B27?, 598
- LMP2 polymorphisms and spondyloarthropathies: *letter*, 386
- streptococci**, A clinical and serological comparison of group A versus non-group A streptococcal reactive arthritis and throat culture negative cases of post-streptococcal reactive arthritis, 410
- stroke**, Shoulder pain after stroke: case report and review: *letter*, 451
- stromelysin**, Analysis of 16 different matrix metalloproteinases (MMP-1 to MMP-20) in the synovial membrane: different profiles in trauma and rheumatoid arthritis, 691
- structured review**, Lumbar osteotomy for correction of thoracolumbar kyphotic deformity in ankylosing spondylitis. A structured review of three methods of treatment: *review*, 399
- subsequent single strand conformation polymorphism**, Type II collagen is a target antigen of clonally expanded T cells in the synovium of patients with rheumatoid arthritis, 446
- sulphasalazine**, Combination therapy in early rheumatoid arthritis: a randomised, controlled, double blind 52 week clinical trial of sulphasalazine and methotrexate compared with the single components, 220
- Does sulphasalazine cause drug induced systemic lupus erythematosus? No effect evident in a prospective randomised trial of 200 rheumatoid patients treated with sulphasalazine or auranofin over five years, 288
- Influence of sulphasalazine, methotrexate, and the combination of both on plasma homocysteine concentrations in patients with rheumatoid arthritis, 79
- surgical drainage**, Clinical features and outcome of septic arthritis in a single UK Health District 1982-1991, 214
- synovial**, Expression of adhesion molecules on synovial fluid and peripheral blood monocytes in patients with inflammatory joint disease and osteoarthritis, 709
- synovial cells**, Thrombin receptor mediated signals induce expressions of interleukin 6 and granulocyte colony stimulating factor via NF- $\kappa$ B activation in synovial fibroblasts, 55
- synovial disease**, Rheumatoid arthritis: A synovial disease?, 727
- synovial fluid**, Chondroitin sulphation patterns in synovial fluid in osteoarthritis subsets, 441
- Clinical and laboratory manifestations of elderly onset psoriatic arthritis: a comparison with younger onset disease, 226
- Destruction of articular cartilage by  $\alpha_1$  macroglobulin elastase complexes: role in rheumatoid arthritis, 109
- Identification of crystals in synovial fluid: *leader*, 261
- Optimised sample preparation of synovial fluid for detection of *Chlamydia trachomatis* DNA by polymerase chain reaction, 103

- synovial fluid analysis**, Most calcium pyrophosphate crystals appear as non-birefringent, 582  
The value of synovial fluid analysis in the assessment of knee joint destruction in arthritis in a three year follow up study, 559
- synovial membrane**, Anti-inflammatory effects of systemic anti-tumour necrosis factor  $\alpha$  treatment in human/murine SCID arthritis, 434
- synovial tissue**, Characterisation of T cell clonotypes that accumulated in multiple joints of patients with rheumatoid arthritis, 546
- synovitis**, Double blind glucocorticoid controlled trial of samarium-153 particulate hydroxyapatite radiation synovectomy for chronic knee synovitis, 554  
Quantitative analysis of synovial membrane inflammation: a comparison between automated and conventional microscopic measurements, 493
- systemic disease**, <sup>111</sup>Indium antimyosin antibody imaging of primary myocardial involvement in systemic diseases, 90
- systemic lupus erythematosus**, Antinuclear antibodies in relapsing polyarthritides: *letter*, 656  
CYP2C19 genotype does not represent a genetic predisposition in idiopathic systemic lupus erythematosus, 182  
Does sulphasalazine cause drug induced systemic lupus erythematosus? No effect evident in a prospective randomised trial of 200 rheumatoid patients treated with sulphasalazine or auranofin over five years, 288  
Factors associated with fatigue in patients with systemic lupus erythematosus, 379  
Increased apoptotic peripheral blood neutrophils in systemic lupus erythematosus: relations with disease activity, antibodies to double stranded DNA, and neutropenia, 309  
Lymphocyte populations and cytokine concentrations in pericardial fluid from a systemic lupus erythematosus patient with cardiac tamponade: *letter*, 720  
Neuropsychiatric systemic lupus erythematosus is associated with imbalance in interleukin 10 promoter haplotypes, 85  
Neuropsychiatric systemic lupus erythematosus: *matters arising*, 658  
Presentation of autoantibody to proliferating cell nuclear antigen in patients with chronic hepatitis B and C virus infection, 630  
Reduced purine 5'-nucleotidase activity in lymphocytes of patients with systemic lupus erythematosus: results of a pilot study, 122  
Ro/SSA and La/SSB specific IgA autoantibodies in serum of patients with Sjögren's syndrome and systemic lupus erythematosus, 623  
The A-G polymorphism in exon 1 of the *CTLA-4* gene is not associated with systemic lupus erythematosus, 193
- systemic lupus erythematosus nephritis**, Cladribine in the treatment of systemic lupus erythematosus nephritis: *letter*, 653
- systemic sclerosis**, Lymphocyte phenotypes in systemic sclerosis: *letter*, 719  
Pulmonary involvement in diffuse cutaneous systemic sclerosis: bronchoalveolar fluid granulocytosis predicts progression of fibrosing alveolitis, 635
- systemic vasculitis**, Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644  
Systemic vasculitis or not? That is the question, 591
- T cell clone**, Type II collagen is a target antigen of clonally expanded T cells in the synovium of patients with rheumatoid arthritis, 446
- T cell receptor**, Characterisation of T cell clonotypes that accumulated in multiple joints of patients with rheumatoid arthritis, 546  
Type II collagen is a target antigen of clonally expanded T cells in the synovium of patients with rheumatoid arthritis, 446
- T1 T cell**, The immune suppressive effect of dexamethasone in rheumatoid arthritis is accompanied by upregulation of interleukin 10 and by differential changes in interferon  $\gamma$  and interleukin 4 production, 49
- T2 T cell**, The immune suppressive effect of dexamethasone in rheumatoid arthritis is accompanied by upregulation of interleukin 10 and by differential changes in interferon  $\gamma$  and interleukin 4 production, 49
- tacrolimus**, Leg bone pain syndrome in a kidney transplant patient treated with tacrolimus (FK506): *letter*, 653
- tendons**, Lysylhydroxylation and non-reducible crosslinking of human supraspinatus tendon collagen: changes with age and in chronic rotator cuff tendinitis, 35
- $\beta$ -thalassaemia**, Prevalence and clinical features of cryoglobulinaemia in multitransfused  $\beta$ -thalassaemia patients, 698
- thalidomide**, Immunomodulation by thalidomide and thalidomide analogues, 1107
- thalidomide analogues**, Immunomodulation by thalidomide and thalidomide analogues, 1107
- thrombin**, Thrombin receptor mediated signals induce expressions of interleukin 6 and granulocyte colony stimulating factor via NF- $\kappa$ B activation in synovial fibroblasts, 55
- thrombocytopenia**, Hug(h)e(s') ears: an unusual presentation of antiphospholipid syndrome: *letter*, 65
- thromboprophylaxis**, Risk of post-discharge venous thromboembolism in patients with rheumatoid arthritis undergoing knee or hip arthroplasty. Is prolonged thromboprophylaxis warranted or dangerous?: *leader*, 392
- transcutaneous electrotherapy**, No effect of bipolar interferential electrotherapy and pulsed ultrasound for soft tissue shoulder disorders: a randomised controlled trial, 530
- trichorhinophalangeal syndrome**, Systemic vasculitis or not? That is the question, 591
- tumour necrosis factor**, Building towards a consensus for the use of tumour necrosis factor blocking agents: *leader*, 725  
Signal transduction by tumour necrosis factor and tumour necrosis factor related ligands and their receptors, 12  
The function of tumour necrosis factor and receptors in models of multi-organ inflammation, rheumatoid arthritis, multiple sclerosis and inflammatory bowel disease, 132  
Tumour necrosis factor and other cytokines in murine lupus, 149  
Tumour necrosis factor gene polymorphisms as severity markers in rheumatoid arthritis, 120
- tumour necrosis factor  $\alpha$** , *leader*  
Clinical implications of tumour necrosis factor  $\alpha$  antagonism in patients with congestive heart failure, 1103  
PEGylated recombinant human soluble tumour necrosis factor receptor type I (r-Hu-sTNF-RI): novel high affinity TNF receptor designed for chronic inflammatory diseases, 173  
Role of tumour necrosis factor  $\alpha$  in experimental arthritis: separate activity of interleukin 1 $\beta$  in chronicity and cartilage destruction, 140  
The role of TNF $\alpha$  and lymphotoxin in demyelinating disease, 1121
- twins**, Perceptual variation in grading hand, hip and knee radiographs: observations based on an Australian Twin Registry study of osteoarthritis, 766
- type II collagen**, Type II collagen is a target antigen of clonally expanded T cells in the synovium of patients with rheumatoid arthritis, 446
- ultrasonography**, Synovitis of small joints: sonographic guided diagnostic and therapeutic approach, 595
- ultrasound**, No effect of bipolar interferential electrotherapy and pulsed ultrasound for soft tissue shoulder disorders: a randomised controlled trial, 530
- urokinase receptor**, Soluble urokinase plasminogen activator receptor in plasma of patients with inflammatory rheumatic disorders: increased concentrations in rheumatoid arthritis, 488
- validity**, Validity of histopathological grading of articular cartilage from osteoarthritic knee joints, 208
- vasculitis**, Monocyte activation in patients with Wegener's granulomatosis, 237  
Nasal manifestations of rheumatic diseases: *leader*, 589
- venous thromboembolism**, Risk of post-discharge venous thromboembolism in patients with rheumatoid arthritis undergoing knee or hip arthroplasty. Is prolonged thromboprophylaxis warranted or dangerous?: *leader*, 392
- virus**, Mechanisms of viral pathogenesis in rheumatic disease: *leader*, 454
- vitamin D metabolites**, Vitamin D receptors in the rheumatoid lesion: expression by chondrocytes, macrophages, and synoviocytes, 118
- vitamin D receptor**, Vitamin D receptors in the rheumatoid lesion: expression by chondrocytes, macrophages, and synoviocytes, 118
- vitamin D-24 hydroxylase**, Autocrine control of vitamin D metabolism in synovial cells from arthritic patients, 372
- web site**, The birth of eARD: *leader*, 197
- Wegener's granulomatosis**, Microscopic polyangiitis (microscopic polyarteritis) with late emergence of generalised Wegener's granulomatosis, 644  
Nasal manifestations of rheumatic diseases: *leader*, 589  
Spleen haemorrhagic infarction and hazards of anticoagulation in Wegener's granulomatosis: *letter*, 654
- whiplash**, Epidemiology of whiplash: an international dilemma: *leader*, 1
- Whipple's disease**, A man with intermittent fever and arthralgia: *matters arising*, 659
- WOMAC**, Rasch analysis of the Western Ontario MacMaster Questionnaire (WOMAC) in 2205 patients with osteoarthritis, rheumatoid arthritis, and fibromyalgia, 563
- xerostomia**, Sicca symptoms, saliva and tear production, and disease variables in 636 patients with rheumatoid arthritis, 415  
Treatment of oral dryness related complaints (xerostomia) in Sjögren's syndrome: *review*, 465
- zymography**, Examination of synovial fluid and serum hyaluronidase activity as a joint marker in rheumatoid arthritis and osteoarthritis patients (by zymography), 186
